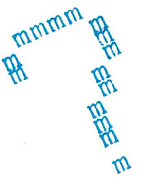
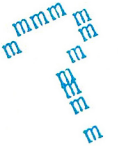
typewriter mystery game 4





DIRECTIONS

To solve the mystery, insert paper in typewriter horizontally (the long way), space down 17 single spaces from the top, set side margins for a 108-space line and begin typing, line by line. Symbols: 5*sp* means strike space bar 5 times; 7" means strike the quotation (") 7 times; 4$ means strike the ($) 4 times; etc. Keep shift lock depressed throughout entire typing *except* where indicated in Lines 9 and 10. Note: Since this is an extra wide design, those who use pica-type machines will just about get it on the page. (There is no problem for elite-type machines.) However, the nature of the design is such that, should the last several strokes at the ends of the lines be off the paper, it really will not change the effect. Upon completion of the design, the foregoing statement will be in evidence.

DIRECTIONS

Note: Since this design has 63 vertical spaces, it is better to use 8½ x 13 (legal size) paper. However, if using 8½ x 11 paper, be sure to start on the topmost line of the sheet and to be sure that the rubber rollers firmly grip the paper. Otherwise, start on the 6th line from the top, set side margins for a 77-space line and begin typing, line by line. Symbols: "77$" means strike the dollar sign ($) 77 times; 10V means strike the capital V 10 times; "8sp" means strike space bar 8 times; etc. Keep shift lock depressed throughout entire typing.
